Hello everyone,

Just like last year there will be a karate skill activity events ring which will be running until aprox 12 noon primarily for ages under 12 or anyone who is present. This is for athletes who want to challenge themselves in sporting games or sport simulation activities.

All athletes under the age of 12 will do 2 performances in both kata and kumite to aid in their development and increase their tournament experience. In addition all athletes under 12 years of age will receive a written feedback for their traditional division performances like last year to aid in their skill development. The idea being that younger kids often don't get any feedback from the tournament other than their medal successes and often don't know how they did and or what they can work on. Im hoping that a personal feedback will help them or their coach get additional feedback to help in the students development.

I look forward to seeing you at our tournament
Thank you Roy Tippenhauer
Tournament director
